Experience design executive turning complex customer journeys into revenue, retention, and faster delivery. 16 years leading UX, CX, and Service Design across telecom, ecommerce, retail, and marketing, including a 20-person org and proprietary frameworks still in use. Known for shipping systems that lift conversion, cut churn, and align brand, marketing, product, support, and sales.

Core Capabilities

Product Design Leadership | UX Strategy | Service Design | Design Systems | Journey Orchestration | Human-Centered Design | UX and CX Research | Usability Testing | UX and CX Metrics | Agile Delivery | AI-Augmented Workflows | Cross-Functional Leadership

Professional Experience

Cox Communications, Inc.

Director, Product Design

2018 to Present

- Led a 20-person design org through 8 direct reports across SMB and enterprise lifecycles, improving retention ~12% across 250K customers
- Built an SMB journey model connecting product, support, and sales touchpoints, driving ~\$217M+ in new revenue over 5 years
- Built a proprietary experience operating system, three frameworks in active use: Moment Architecture (where to invest), Experience IQ (how to design it), and The Trace (every screen traceable to strategy)
- Institutionalized strategy-to-execution as an enterprise capability, architecting 70+ reusable AI skills being adopted as the combined-org standard post-merger
- Built, run, and maintain the operating model as living infrastructure, delivering ~\$1M in avoided contractor spend and compressing a six-week production cycle to five days
- Redesigned onboarding across 20+ touchpoints, increasing new customer satisfaction ~23%
- Helped move JD Power ranking from 9th to 3rd through CX and product improvements
- Hired and developed the team, promoting 3 designers into senior roles
- Won funding for design initiatives through business cases pitched to executive leadership

Cox Communications, Inc.

Experience Design Strategy Lead

2015 to 2018

- Reduced enterprise churn ~9% by identifying friction across 6 segments through 100+ ethnographic interviews
- Cut support tickets ~15% by redesigning agent tools and customer portal workflows
- Built design system adopted by 12 engineers, reducing development time ~25%
- Mapped 50+ customer journeys and service blueprints that aligned product, support, and sales on shared priorities

The Home Depot

UX Information Architect

2014 to 2015

- Increased mobile conversion ~22% by redesigning checkout flow on a \$1B ecommerce platform
- Improved add to cart rate ~9% by simplifying product and cart interactions
- Speeded release cycles ~20% by embedding 50+ usability tests with 300+ participants
- Standardized reusable patterns for 40+ designers, reducing QA time ~20%

The Home Depot

Project Manager

2013 to 2014

- Delivered ~\$2M in digital projects across 8 workstreams with 100% on time completion
- Reduced bounce rate ~13% by improving page structure with design and engineering teams

Moxie USA

Digital Brand Marketing Manager

2010 to 2013

- Drove \$1B+ in online sales during device launches through multi-channel campaign execution
- Increased click through rate ~18% through personalized targeting across 50+ campaign variants
